## STRAIGHT CONVECTION™ TECHNOLOGY

American Range is pleased to introduce Straight Convection™ Technology. Borrowing from the aerospace industry, we've circled our convection bake fan with a powerful ring heater - and straightened out the hot air stream using proprietary air directors. The result is shorter cooking times and more uniform heat transfer for multiple rack cooking - saving time and energy!

## COMMERCIAL HERITAGE

American Range introduces the new dual fuel range for the home - a kitchen cooking product for the best of both worlds. The dual fuel range combines the accurate temperature control of the electric oven cell - with the speed and power of our industry-leading gas range top. When you add in our rugged, commercial design and construction heritage, as can be expected, the whole is far greater than the sum of its parts.
