- Super-quiet operation
- Made in Germany

For spaces up to  
430 ft<sup>2</sup>

Air humidified  
to an optimal 40–60%

Reduction of pollen and  
house dust particles

Air pollutants naturally reduced  
(at indoor humidity of 40–60%)

The LW25 Original Humidifier creates healthy humidity and naturally reduces harmful pollutants in the air. Its genius is effective operation without complicated tech. Simply fill with water – no need for filters. The Humidifier uses the proven cold evaporation principle. The operating panel couldn't be easier: one on/off button and a selector switch for the 3 speeds. The LED status lamp indicates when the water level is low. Easy, no-fuss cleaning is a standout feature of the LW25 Original. With a power consumption of less than 10 watts, the LW25 Original Humidifier is extremely energy-efficient. It is ideal for medium-sized rooms such as living rooms.

#### Simple operation

One on/off button, two speeds for setting the humidification rate, sleep mode at speed one, LED status lamp indicates low water level and automatic switch-off when the water is low. That's all the tech your Original Humidifier needs to give you healthy air.

#### Reliable operation

Simply fill your LW25 Original Humidifier with fresh tap water to enjoy great air quality. There is even an aromatherapy option. Venta offers six fragrances from relaxing to vitalizing.

#### Easy cleaning

Simply lift the electrical unit and fan out of the housing in one movement for easy cleaning and care.
