FEATURES & BENEFITS

Generous capacity

With a generous sized internal cavity, you can create several dishes at once using multiple shelves.

Perfect Results

Our built-in ovens feature ActiveVent technology for optimized moisture levels, and AeroTech™ for even heat distribution. Get perfect results even when you're using multiple shelves.

Multi-function flexibility

Nine functions including Aero™ Pastry, Roast and Aero™Bake mean no matter what you're cooking, you've got the right heat to match.

Seamless fit

Designed to fit seamlessly in your kitchen, this built-in oven fits flush with cabinetry to minimize gaps and add to a cohesive aesthetic.

Cleaning is simple

The self-clean function breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

The Beauty of Choice

With the choice of stylish stainless steel or elegant black, you can choose the finish that complements your kitchen design best.

Safe and sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.
